**RNI has activated the transmission service with digital certification of regulatory practices for Spanish authorities.****RNI can be found on pages 202 and 203 of Chemical Watch's Global Service Providers Guide 2021, at the following [link](#)****In order to verify the VAT number associated with the UFI code in most European countries, press [here](#)**

EU: IMPLEMENTING DECISION (EU) 2021/1182 ON MEDICAL DEVICES

On July 16, 2021, the European Commission published the implementing decision (EU) 2021/1182 for the harmonization of the rules for medical devices drafted in support of Regulation (EU) 2017/745. The Commission, in collaboration with CEN, has concluded that the revised and drafted standards are compliant with Regulation (EU) 2017/745, therefore they have been published in the Official Journal.

ECHA: RESTRICTION OF AROMATIC POLYCYCLIC HYDROCARBONS IN SYNTHETIC LAWN

The European Commission has adopted a restriction on polycyclic aromatic hydrocarbons (PAHs) found in rubber granules and mulches used as infill material in synthetic turf pitches or in loose form on playgrounds or in sport applications. The permitted concentration limits for eight PAHs will be lowered to 20 mg / kg as recommended by ECHA's scientific committees. The current limits are 100 mg / kg or 1 000 mg / kg following entry 28 of the list of restrictions (Annex XVII).

The restriction, initiated by the Dutch authorities, has applied since 10 August 2022.

SOUTH KOREA: PRE-REGISTERED 17151 SUBSTANCES UNDER THE KOREA REACH

On July 15, 2021, the Ministry of the Environment (MoE) of South Korea published the updated list of pre-registered substances under K-REACH. A total of 193,224 pre-registration applications have been submitted so far for 17,151 existing chemicals, of which 78 are CMR substances. About 11% of pre-registered substances are manufactured or imported over 1,000 tons per year.

KKIDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY TURKISH AUTHORITY ONLY EARLY 2021

ACT NOW IF YOU LOST THE LAST DEADLINE

In 2017, Turkey published and consolidated the text of the KKIDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
