FDA: APPROVED PETITION FOR THE INTRODUCTION OF ACACIA (ARABIC GUM) AS DIETARY FIBER

The US Food and Drug Administration has announced that it intends to propose the inclusion of "Acacia (gum arabic)", also known as acacia gum, in the FDA definition of dietary fiber. Dietary fiber that can be declared on the Nutrition and Supplement Facts labels includes certain naturally occurring fibers that are "intrinsic and intact" in plants and added isolated or synthetic non-digestible soluble and insoluble carbohydrates that the FDA has determined have physiological effects that benefit human health.

The FDA has determined that scientific evidence supports that acacia gum can help reduce blood glucose and insulin levels after being consumed with a meal containing a carbohydrate that raises blood glucose levels.

VIETNAM: ISSUED NEW DECREE No. 111/2021 / ND-CP FOR GOOD LABELLING

On 9 December 2021, the government of Vietnam issued the decree no. 111/2021 / ND-CP amending and integrating the decree n. 43/2017 / ND-CP on good labelling. If it is not possible to identify the origin of the goods, the country or region, where the finishing phase is carried out, must be indicated on the label.

The decree will come into force on 15 February 2022.

UK-AUSTRALIA: FREE TRADE AGREEMENTS AND COSMETICS ANNEX

On 16 December 2021, the UK signed a trade agreement with Australia, following the Agreement in Principle (AiP) of June 2021. The Free Trade Agreement (FTA) is the first UK trade agreement to be finalized, as Australia did not have an existing agreement with the EU prior to the UK's exit.

The agreement notably includes a cosmetics annex which lays the groundwork for reducing regulatory differences for UK companies exporting to Australia. The Australian and UK governments will seek to work together through international fora to align cosmetics legislation where appropriate. The inclusion of a cosmetics annex will make it easier to understand which rules UK companies must follow, including products classified as cosmetics in one system but not the other. For example, UK companies exporting products like sunscreen and dandruff shampoos to Australia will be helped to understand if their product is a cosmetic and what rules they need to follow.

UK: LATE DUIN IS POSSIBLE

On 27th October the possibility to notify DUIN (Downstream Import Notification) in the UK expired. Companies that submitted their notifications for their substances in time to the HSE, will benefit from extended UK REACH registration deadlines as follows: 27 October 2023, 2025, and 2027 depending on the annual tonnage and the hazards of the substance. However, companies that have not notified their substances by the deadline and wish to continue importing EU REACH registered substances into the UK market at 1 tonne or more per year can still submit DUIN late notifications.

UK-based importers and UK-based only representatives appointed by non-UK suppliers (such as non-UK manufacturers / formulators) may submit DUIN notifications late. When the designated OR sends the late DUIN, the GB downstream users will be covered by this DUIN and will not have to send their own.

The HSE recommends doing this as soon as possible.

Our UK - BREXIT services cover the fulfillments of national regulations in the UK which will come into force after the release.

RNI srl provides the services listed for EU companies and for UK based companies:

- For national authorization applications still under evaluation in the UK, submitted by companies based in the EU, it is necessary that the latter appoint their own OR (based in the UK) by 31.12.2021 to continue the authorization process.
- LATE DUIN notification for GB importers of substances and mixtures **is possible after 27.10.2021**
- New UK REACH registrations according to new deadlines
- Compliance with new UK regulations (REACH, CLP; BPR, etc.)
- Exclusive Representation Services in UK for Italian / EU companies (OR service)

In collaboration with our partner LANDILEX, we also offer [legal consultancy](#).

KKDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY TURKISH AUTHORITY ONLY EARLY 2021

ACT NOW IF YOU LOST THE LAST DEADLINE

In 2017, Turkey published and consolidated the text of the KKDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
