EU-CHINA GEOGRAPHICAL INDICATIONS AGREEMENT

On March 1st, the agreement entered into force between the European Union and the Government of the People's Republic of China on cooperation in the field of geographical indications and their protection, published in the Official Journal of the EU, L 408I, of 4 December 2020.

The protection will apply to 200 GIs, of which 100 are European and 100 Chinese, and in four years the scope of the agreement will expand further, covering a further 175 GI names on both sides. The text also provides for a mechanism to subsequently add further geographical indications.

HSE: MAXIMUM RESIDUE LEVEL AMENDMENTS

Maximum residue levels (MRLs) for pesticide residues in or on food and feed of plant and animal origin are established in Great Britain (GB) under Regulation (EC) No 396/2005.

In order to accommodate new authorisations in GB and to set an import tolerance to meet the requirements of international trade, new MRLs have been set in the GB MRL Statutory Register for the following active/commodity combinations:

- Chlorantraniliprole/ pulses
- Flonicamid/ various root crops
- Fludioxonil/ rhubarbs
- Prothioconazole/ celeriacs
- Pyraclostrobin/ sweet corn

The new MRLs came into force on 22 April 2021 indicated in the GB MRL Statutory Register.

JRC: EXPORT CONTROL HANDBOOK FOR CHEMICALS (2021 EDITION)

The Export Control Handbook for Chemicals (2021 edition) contains a list of chemicals, around 1800, subject to export controls (restrictions, or prohibitions under sanctions) because of their inclusion in various EU regulations. Each chemical is correlated with other data of interest: CAS number, reference codes, EU legislation of reference and 8 digits code (CN code) used for Customs declaration purposes.

KKIDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY TURKISH AUTORITHY ONLY EARLY 2021

ACT NOW IF YOU LOST THE LAST DEADLINE

In 2017, Turkey published and consolidated the text of the KKIDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
