RNI has activated the transmission service with digital certification of regulatory practices for Spanish authorities.

RNI can be found on pages 202 and 203 of Chemical Watch's Global Service Providers Guide 2021, at the following [link](#)

REF11: ENFORCEMENT SAFETY DATA SHEETS

Safety data sheets are needed to communicate information along the supply chain. The REF11 project will verify compliance with the revised requirements in REACH Annex II, which establishes the required content and format for safety data sheets. With the revised requirements coming into effect in 2023, this is a timely opportunity to have a harmonized blueprint to verify that companies across the EU are fulfilling this duty.

The Forum will prepare the program in 2022, inspections will take place in 2023 and Member States will report the results in 2024.

A revised compendium has also been adopted which expands the number of recommended analytical methods for verifying compliance with REACH restrictions and will soon be published on the ECHA website.

AUSTRALIA: DANGEROUS GOODS CODE UPDATE

In July 2020, the latest update of the DANGEROUS GOODS CODE was published. This new version is in line with the 21st revised edition of the United Nations (UN) Recommendation on Model Regulations for the Transport of Dangerous Goods and also includes specific provisions that better reflect current Australian practices.

The ADG Code is updated every two years, with a transition period of one year for each edition. Edition 7.7 can be used from 1st October 2020 and is mandatory from 1st October 2021.

KKDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY TURKISH AUTHORITY ONLY EARLY 2021

ACT NOW IF YOU LOST THE LAST DEADLINE

In 2017, Turkey published and consolidated the text of the KKDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
