**RNI has activated the transmission service with digital certification of regulatory practices for Spanish authorities.****RNI can be found on pages 202 and 203 of Chemical Watch's Global Service Providers Guide 2021, at the following [link](#)****In order to verify the VAT number associated with the UFI code in most European countries, press [here](#)**

UK: EXTENSION OF THE UKCA MARKING OBLIGATION

The British government has postponed to 1 January 2023 - instead of 1 January 2022 - the date that will make the new UKCA mark of conformity mandatory to place a wide range of products on the markets of Great Britain (England, Scotland and Wales) that they carry the CE marking.

However, the UKCA mark alone cannot be used for goods placed on the Northern Ireland Market (UKNI).

For more information about UKNI marking press [here](#).

JAPAN: FROM OCTOBER 22, PFOA WILL BE PROHIBITED IN 13 IMPORTED PRODUCTS

On August 30, 2021, the Japanese Ministry of Economy, Trade and Industry (METI) published the "Partial Revision of Import Customs Clearance Procedures for Chemical Substances" which will come into force on October 22.

The 2,2,2-trichloro-1- (2-chlorophenyl) -1- (4-chlorophenyl) ethanol, perfluorooctanoic acid (PFOA) and / or its salts have been added to Appendix I of the Regulation; while in Appendix II 13 types of products have been added as products prohibited for importation if PFOA and / or its salts are used.

NEW ZEALAND: BILL AMENDMENT OF ACT 1996

On 30 June the bill was presented to the New Zealand parliament to amend the Hazardous Substances and New Organisms Act 1996 (the Act) to improve the assessment and reassessment of hazardous substances.

The bill makes changes to the law in the following 3 main categories:

- enabling the EPA to make better use of information from international regulators
- make other improvements to the reassessment process
- make technical changes.

KKIDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY TURKISH AUTHORITY ONLY EARLY 2021

ACT NOW IF YOU LOST THE LAST DEADLINE

In 2017, Turkey published and consolidated the text of the KKIDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
