**RNI has activated the transmission service with digital certification of regulatory practices for Spanish authorities.****RNI can be found on pages 202 and 203 of Chemical Watch's Global Service Providers Guide 2021, at the following [link](#)****In order to verify the VAT number associated with the UFI code in most European countries, press [here](#)**

## UK REACH: PUBLISHED THE GRANDFATHERED REGISTRATION NOTIFIED SUBSTANCES LIST

The Department for the Environment, Food and Rural Affairs (DEFRA) has published the list of substances notified with GRANDFATHERING.

The list contains the names and CAS / EC numbers of the substances taken from notifications made under the UK REACH Regulation. The data submitted to HSE was provided using the Comply with UK REACH service and covers substances up to and including 1 July 2021.

The list does not include all substances that have moved from EU REACH to UK REACH using existing registration of owners already based in UK. UK based companies will need to notify HSE of their downstream user / distributor status by submitting a Downstream User Import Notification (DUIN).

For more information press [here](#)

## EUROPEAN COMMISSION: IMPLEMENTATION OF RESTRICTIONS ON CHEMICALS IN TATTOO INKS

The 2020/2081 Regulation on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) as regards substances in tattoo inks or permanent make-up will come into force on January 4, 2022.

The restriction covers, for example, chemicals that cause cancer or genetic mutations and chemicals that are toxic to reproduction, as well as sensitizers and skin irritants. The regulation provides for a transitional period of 12 months after entry into force for many substances and a transitional period of 24 months for pigment green 7 and blue 15.

## EUROPEAN COMMISSION: REFORM OF EU'S PHARMACEUTICAL LEGISLATION

The European Commission, with the intention of creating a future regulatory framework to deal with the crisis in the pharmaceutical sector, has published a public consultation on the revision of EU's pharmaceutical legislation. This is the latest step towards an ambitious reform, as announced in the Pharmaceutical Strategy for Europe, adopted in November 2020.

The consultation will last until 21 December and will gather views from both the general public and stakeholders to support the evaluation of and the impact assessment for the revision of the EU's pharmaceutical legislation.

## KKDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY TURKISH AUTHORITY ONLY EARLY 2021

**ACT NOW IF YOU LOST THE LAST DEADLINE**

In 2017, Turkey published and consolidated the text of the KKDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

**At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.**

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

### SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
