## ECHA: RESTRICTION OF BISPHENOL A (4,4'-isopropylidenediphenol)

Germany has sent out a second call for evidence to support the preparation of a REACH restriction registration of bisphenol A and other bisphenols that pose a risk to the environment. The call for evidence aims to clarify the remaining questions on the potential alternatives and socio-economic impacts of the restriction proposal.

The deadline for comments is on 22 December 2021.

For more information press [here](#)

## EUROPEAN COMMISSION: BAN OF 23 CMR IN COSMETIC PRODUCTS

The European Commission has published a regulation to amend several annexes to the Cosmetics Regulation, banning the use in cosmetics of 23 substances that are carcinogenic, mutagenic or reprotoxic (CMR).

The bans will come into force on 1 March 2022 and the list also includes zinc pyrithione, classified as a category 1B carcinogen.

The substance will be removed from Annex V, the list of preservatives allowed in cosmetics, where it was previously allowed in concentrations up to 1% in rinse-off hair products and 0.5% in other products. It will also be removed from Annex III, the list of restricted cosmetic ingredients, where its use in leave-in hair products in concentrations up to 0.1% was allowed.

The Regulations have been published in the Official Gazette and will come into force on 23 November.

For more information press [here](#)

## CALIFORNIA: PROPOSITION 65 ENFORCEMENT

Proposition 65 notices were published in the last quarter of 2021.

The main notices concern:

- Food and herbal supplements for lead, acrylamide, arsenic, cadmium, furan, mercury and carbaril and other chemicals;
- Bags, cases etc for one or more phthalates, bisphenol A and lead;
- Bisphenol A in socks;
- Several Notifications on phthalates (41%);
- Several Notifications on metals (36%).

## UK: LATE DUIN IS POSSIBLE

On 27th October the possibility to notify DUIN (Downstream Import Notification) in the UK expired. Companies that submitted their notifications for their substances in time to the HSE, will benefit from extended UK REACH registration deadlines as follows: 27 October 2023, 2025, and 2027 depending on the annual tonnage and the hazards of the substance. However, companies that have not notified their substances by the deadline and wish to continue importing EU REACH registered substances into the UK market at 1 tonne or more per year can still submit DUIN late notifications.

UK-based importers and UK-based only representatives appointed by non-UK suppliers (such as non-UK manufacturers / formulators) may submit DUIN notifications late. When the designated OR sends the late DUIN, the GB downstream users will be covered by this DUIN and will not have to send their own.

The HSE recommends doing this as soon as possible.

Our UK - BREXIT services cover the fulfillments of national regulations in the UK which will come into force after the release.

RNI srl provides the services listed for EU companies and for UK based companies:

- For national authorization applications still under evaluation in the UK, submitted by companies based in the EU, it is necessary that the latter appoint their own OR (based in the UK) by 31.12.2021 to continue the authorization process.
- LATE DUIN notification for GB importers of substances and mixtures is possible after 27.10.2021
- New UK REACH registrations according to new deadlines
- Compliance with new UK regulations (REACH, CLP; BPR, etc.)
- Exclusive Representation Services in UK for Italian / EU companies (OR service)

In collaboration with our partner LANDILEX, we also offer [legal consultancy](#).

## KKIDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY TURKISH AUTORITHY ONLY EARLY 2021

**ACT NOW IF YOU LOST THE LAST DEADLINE**

In 2017, Turkey published and consolidated the text of the KKIDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

**At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.**

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

### SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
