**RNI has activated the transmission service with digital certification of regulatory practices for Spanish authorities.**

**RNI can be found on pages 202 and 203 of Chemical Watch's Global Service Providers Guide 2021, at the following [link](#)**

## SOUTH KOREA: MODIFICATION OF FOOD ADDITIVE CODES

On July 1, 2021, the Ministry of Food Safety and Medicines (MFDS) issued the latest version of the Food Additives Code. The regulation introduces a new category of flavoring substances, adding in it 60 substances, and divides them into natural flavoring substances and synthetic flavoring substances.

In addition, they are clarified:

- The standards for using 16 food colorants in health functional foods, and
- The test methods for glycerin and L-leucine.

The regulation entered into force on 1 July 2021. However, the amendments on flavoring substances will be implemented on 1 July 2022.

## KKDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY TURKISH AUTORITHY ONLY EARLY 2021

**ACT NOW IF YOU LOST THE LAST DEADLINE**

In 2017, Turkey published and consolidated the text of the KKDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

**At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.**

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

### SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
