EUROPEAN COMMISSION: OPINIONS ON THE SETTING LIMIT VALUES OF POPs IN ANNEX I

The European Commission should respect the international agreements on the Stockholm Convention on Persistent Organic Pollutants (POPs).

Hexachlorobenzene, a substance used in pesticides, is included in Annex A of the Stockholm Convention and Annex I of EU Regulation 2019/1021.

The initiative provides for the amendment of Annex I which currently does not set a limit value for the presence of hexachlorobenzene as an unintentional trace contaminant in substances, mixtures and articles. This draft act is open for opinions for 4 weeks.

UK: ARTICLE 26 INQUIRY

Companies wishing to import substances into the UK in quantities greater than 1 tonne per year must register their substances under the UK REACH Regulation. Those who have not been able to register their substances through transitional measures (DUIN and grandfathering) or are going to import or produce a substance for the first time, must register the substances under the UK-REACH Regulation by completing the Article 26 Inquiry procedure.

SOUTH KOREA: PUBLISHED GUIDELINES FOR REGISTRATION OF NEW SUBSTANCE TYPES UNDER K-REACH

Proposition 65 notices were published in the last quarter of 2021.

The main notices concern:

- Food and herbal supplements for lead, acrylamide, arsenic, cadmium, furan, mercury and carbaril and other chemicals;
- Bags, cases etc for one or more phthalates, bisphenol A and lead;
- Bisphenol A in socks;
- Several Notifications on phthalates (41%);
- Several Notifications on metals (36%).

UK: LATE DUIN IS POSSIBLE

On 27th October the possibility to notify DUIN (Downstream Import Notification) in the UK expired. Companies that submitted their notifications for their substances in time to the HSE, will benefit from extended UK REACH registration deadlines as follows: 27 October 2023, 2025, and 2027 depending on the annual tonnage and the hazards of the substance. However, companies that have not notified their substances by the deadline and wish to continue importing EU REACH registered substances into the UK market at 1 tonne or more per year can still submit DUIN late notifications.

UK-based importers and UK-based only representatives appointed by non-UK suppliers (such as non-UK manufacturers / formulators) may submit DUIN notifications late. When the designated OR sends the late DUIN, the GB downstream users will be covered by this DUIN and will not have to send their own.

The HSE recommends doing this as soon as possible.

Our UK - BREXIT services cover the fulfillments of national regulations in the UK which will come into force after the release.

RNI srl provides the services listed for EU companies and for UK based companies:

- For national authorization applications still under evaluation in the UK, submitted by companies based in the EU, it is necessary that the latter appoint their own OR (based in the UK) by 31.12.2021 to continue the authorization process.
- LATE DUIN notification for GB importers of substances and mixtures is possible after 27.10.2021
- New UK REACH registrations according to new deadlines
- Compliance with new UK regulations (REACH, CLP; BPR, etc.)
- Exclusive Representation Services in UK for Italian / EU companies (OR service)

In collaboration with our partner LANDILEX, we also offer [legal consultancy](#).

KKDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY TURKISH AUTHORITY ONLY EARLY 2021

ACT NOW IF YOU LOST THE LAST DEADLINE

In 2017, Turkey published and consolidated the text of the KKDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
