RNI has activated the transmission service with digital certification of regulatory practices for Spanish authorities.

RNI can be found on pages 202 and 203 of Chemical Watch's Global Service Providers Guide 2021, at the following [link](#)

EU: SUSTAINABILITY TRANSITIONS UNDER THE GREEN DEAL

The Green Deal is the strategy of the European Union (EU) to transform the European economy and society in order to protect the health of the planet, adopting a political approach aimed at achieving climate neutrality and the circular economy.

The toolkit presents methodologies, measures and tools in the context of EU cohesion policy and focuses in particular on how cohesion policy can facilitate transitions towards sustainability in the planning and implementation of partnership programs and agreements, facilitating the transition to a climate-neutral, green and circular economy.

OMAN AND NEW ROHS REQUIREMENTS

The Telecommunications Regulatory Authority (TRA) of Oman will implement the new RoHS (Restriction of Hazardous Substances) requirements. Therefore, new radio and telecommunication terminal equipments, that are subject to the approval procedure, will also have to comply with the new requirements of the RoHS mark (EU Directive 2017/2102). Among the substances subject to RoHS restriction are: cadmium (0.01%); lead (0.1%); mercury (0.1%); hexavalent chromium (0.1%); polybrominated biphenyls (PBB) (0.1%).

The purpose of this directive is to reduce hazardous materials in electronics and help partially to resolve the problem of consumer electronics waste.

KKDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY TURKISH AUTORITHY ONLY EARLY 2021

ACT NOW IF YOU LOST THE LAST DEADLINE

In 2017, Turkey published and consolidated the text of the KKDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
