RNI has activated the transmission service with digital certification of regulatory practices for Spanish authorities.

RNI can be found on pages 202 and 203 of Chemical Watch's Global Service Providers Guide 2021, at the following [link](#)

In order to verify the VAT number associated with the UFI code in most European countries, press [here](#)

CHILE: PUBLISHED THE DOCUMENT FOR THE CLASSIFICATION OF HAZARDOUS SUBSTANCES

The Chilean Ministry of Health has published its reference document for the classification of hazardous chemicals. This is an official classification list of chemical substances and mixtures according to the provisions of the Regulations on the Classification, Labeling and Notification of Hazardous Chemical Substances and Mixtures decreed by SD n. 57 of 2019, and which includes:

- Chemical name,
- CAS number,
- Classification, class codes and hazard category
- Classification and hazard statement codes
- Specific concentration limits, M-factors and ETAs
- Notes relating to the identification, classification and labeling of substances

EFSA PROPOSES TO REDUCE THE TOLERABLE DAILY INTAKE OF BISPHENOL A

The European Food Safety Authority (EFSA) has re-evaluated the risks of bisphenol A (BPA) in food and proposes to significantly reduce the Tolerable Daily Intake (TDI) from its previous assessment in 2015 to 0.4 nanograms / kg / bw / day. EFSA's conclusions on BPA are explained in a draft scientific opinion open for public consultation until 8 February 2022.

All interested parties are encouraged to contribute to the consultation.

EUROPEAN COMMISSION: ADDED PROPERTIES OF ENDOCRINE INTERFERENTS TO 4 PHTHALATES

The European Commission has added endocrine disrupting properties to 4 phthalates as established by [REGULATION \(EU\) 2021/2045](#) for the following substances:

- bis (2-ethylhexyl) phthalate (DEHP);
 - benzyl butyl phthalate (BBP);
- dibutyl phthalate (DBP); And
- diisobutyl phthalate (DIBP)

The update follows ECHA's 2019 recommendation. The four phthalates were originally added to the list in 2011 and 2012 as toxic for reproduction.

UK: LATE DUIN IS POSSIBLE

On 27th October the possibility to notify DUIN (Downstream Import Notification) in the UK expired. Companies that submitted their notifications for their substances in time to the HSE, will benefit from extended UK REACH registration deadlines as follows: 27 October 2023, 2025, and 2027 depending on the annual tonnage and the hazards of the substance. However, companies that have not notified their substances by the deadline and wish to continue importing EU REACH registered substances into the UK market at 1 tonne or more per year can still submit DUIN late notifications.

UK-based importers and UK-based only representatives appointed by non-UK suppliers (such as non-UK manufacturers / formulators) may submit DUIN notifications late. When the designated OR sends the late DUIN, the GB downstream users will be covered by this DUIN and will not have to send their own.

The HSE recommends doing this as soon as possible.

Our UK - BREXIT services cover the fulfillments of national regulations in the UK which will come into force after the release.

RNI srl provides the services listed for EU companies and for UK based companies:

- For national authorization applications still under evaluation in the UK, submitted by companies based in the EU, it is necessary that the latter appoint their own OR (based in the UK) by 31.12.2021 to continue the authorization process.
- LATE DUIN notification for GB importers of substances and mixtures **is possible after 27.10.2021**
- New UK REACH registrations according to new deadlines
- Compliance with new UK regulations (REACH, CLP; BPR, etc.)
- Exclusive Representation Services in UK for Italian / EU companies (OR service)

In collaboration with our partner LANDILEX, we also offer [legal consultancy](#).

**KKDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY
TURKISH AUTHORITY ONLY EARLY 2021**

ACT NOW IF YOU LOST THE LAST DEADLINE

In 2017, Turkey published and consolidated the text of the KKDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
