## HSE: OFFICIAL REGULATIONS ON PLANT PROTECTION PRODUCTS

The Official Regulations on Plant Protection Product Controls introduce a new obligation for operators across the PPP supply chain to notify their competent authority. Operators must then complete a notification if they import, manufacture, process, distribute authorized PPPs for professional use, adjuvants or PPP ingredients including active ingredients, phytoprotectors, synergists and co-formulants.

There is also a single notification process for Great Britain managed by DEFRA, which will collect information on behalf of all three competent authorities.

The deadline for submitting the notification is 22 September.

More informations are available on HSE website, pressing [here](#)

Our UK - BREXIT services cover the fulfillments of national regulations in the UK which will come into force after the release.

RNI srl provides the services listed for EU companies and for UK based companies:

## KKDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY TURKISH AUTHORITY ONLY EARLY 2021

**ACT NOW IF YOU LOST THE LAST DEADLINE**

In 2017, Turkey published and consolidated the text of the KKDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

**At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.**

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

### SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
