RNI has activated the transmission service with digital certification of regulatory practices for Spanish authorities.

RNI can be found on pages 204 and 205 of Chemical Watch's Global Service Providers Guide 2021, at the following [link](#)

AUSTRALIA: UPDATE TO GHS 7

Australia officially began a two-year transition period to GHS 7 on 1 January 2021. Until 31 December 2022, manufacturers and importers of hazardous chemicals in the workplace can use GHS3 or GHS7 to classify chemicals and prepare labels and SDSs.

This new regulation introduces some relevant changes:

1. New categories and classes of risk
2. Updated safety advice.
3. New definition of "dangerous chemical".

KKIDIK (TURKISH REACH): LATE PREREGISTRATION ACCEPTED BY TURKISH AUTHORITY ONLY EARLY 2021

ACT NOW IF YOU LOST THE LAST DEADLINE

In 2017, Turkey published and consolidated the text of the KKIDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH.

One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

At this stage, the possibility is open to pre-register by 31/12/2020 but the Turkish government seems to accept late preregistration until 31.12.2023.

Moreover, in the last quarter of 2021 The MoEU will add a sub-tool into the KKS in order to generate Chemical Safety Report.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

SEA UPDATES:

The SEA CLP like Regulation has been updated, adding 110 new substances to the Harmonized List of classification and labeling "and new hazard classifications. Furthermore, only polymers must be notified and not their ingredients.
