MANUAL CHECK ON OECD 443 EOGRTS

The extended one-generation reproducibility toxicity OECD 443 study was introduced in March 2015 as information to be provided regarding the reproductive toxicity of substances under the REACH regulation. From next year ECHA will start the evaluation of all OECD 443 studies that have been submitted by registrants following direct requests from the authority, based on dossier compliance verification decisions.

The goal is to:

- analyze the extent to which studies meet regulatory expectations;
- inform about potential concerns, such as endocrine disrupting properties; is
- analyze the scope of the study (second generation filial production, developmental neurotoxicity and immunotoxicity) and the relationship with regulatory triggers under REACH.

ECHA is the promoter of the project and will manage it in collaboration with the Member States. Other stakeholders may also be involved for consultations. The final report of the project results will be made public in 2023.

KOREA GHS

South Korea published the revised Standard for Classification and Labeling for Chemical Substances and Material Safety Safety Data Sheet, which will enter into force on January 26 2021.

**KKIDIK (TURKISH REACH): PREREGISTRATION
DEADLINE SET ON 31/12/2020.**

In 2017, Turkey published and consolidated the text of the KKIDIK regulation regarding chemicals that can be placed on local national market. The scheme adopted follows the European REACH regulation in many prescriptions, so much so that it is often referred to as Turkey-REACH. One of the significant differences is that there is only one registration deadline for all tonnage bands, set for 31/12/2023.

At this stage, the possibility is open to pre-register by 31/12/2020.

As for REACH EU, applicants must be Turkish legal entities. Non-Turkish companies that want to keep the market will have to appoint a local OR (only Representative). RNI srl can offer this service.

For more information, contact info@reachup.it

AssICC has signed an agreement with the associated company RNI (ReachUp Regulatory Network Italy) srl, which offers advice on product regulations for the European and extra-European markets.

Thanks to the stipulated agreement, for all the companies associated with AssICC will be reserved a 10% discount on the RNI srl services.
